

▼ Feature: As a Amazon user I should be able to login and logout with valid credentials

▼ Scenario: Login into the application with valid credentials

Given I am on the Login page URL "https://www.amazon.in/"
Then I click on sign in button and wait for sign in page
Then I should see Sign In Page
When I enter username as "testusername"
And I Click on Continue button
And I enter password as "testpassword"
And click on login button
Then I am logged in
And I clear cart items if any
Then I choose Electronics->Headphones and headphones lists out
Then I add first available headphone to cart
Then I search "Macbook pro" and add second available item to cart
Then I Select cart from home and remove the earlier added headphones
Then I Reduce the Quantity of the macbook pro product to one and proceed to checkout
And I Click on Sign out
Then I got log out from the application and land on sign in page

Then I click on sign in button and wait for sign in page
Then I should see Sign In Page
When I enter username as "testusername"
And I Click on Continue button
And I enter password as "testpassword"
And click on login button
Then I am logged in
And I search different "laptops" from the search bar

The screenshot shows the Amazon.in homepage with a search bar containing 'laptops'. The top navigation bar includes links for 'All', 'Hello, Rohit', 'Account & Lists', 'Orders', 'Try Prime', and a shopping cart icon showing 2 items. The main search results area displays a grid of laptop products. One prominent result is an HP laptop with a 4-star rating and 390 reviews. Another result is a Lenovo Ideapad 330S laptop with a 4-star rating and 245 reviews. The sidebar on the left offers filters for 'Amazon Prime', 'Department' (Computers & Accessories, Laptops), 'Avg. Customer Review' (4 stars and up, 5 stars and up), and 'Brand' (HP, Lenovo, Dell, Asus). A sponsored section for HP laptops is also visible.
